Technologies

JavaScript	Proficient
React	Proficient
Node.js	Proficient
Docker	Proficient
MongoDB	Intermediate

Paradigms

Test Driven
Async
Object Oriented
Functional
Microservices
Reactive

Experience

InVision September 2019 - Present

Senior Full Stack Engineer

Developing and testing InVision's Design System Manager (DSM).

Tech Stack

JavaScript React Node.js MongoDB Docker

Wix December 2018 - August 2019

Senior Full Stack Engineer

Developing and testing the Wix.com dashboard.

Tech Stack

JavaScript Typescript React Node.js MySQL Docker

CorAlert July 2017 - November 2018

Full Stack Engineer

Designing, Testing & Developing a Cloud Backed IoT application.

Projects

CorAlert Device

Development of a software stack for a medical device which detects heart failure.

- Features**
- Upstream synchronization of logs and data.
 - Downstream synchronization of software versions and configuration profiles.
 - Configurable Parallelism of Medical algorithms.

CorAlert Management Console

Development of a cloud application which complements the company's device.

- Features**
- Track the status of devices.
 - Deploy and create device configuration profiles.
 - Deploy software versions to devices.
 - View device logs (both historical and real time).
 - View device generated data.

Tech Stack

JavaScript React Node.js MongoDB .NET Core C#
RabbitMQ Docker AWS

CodeValue March 2016 - July 2017

Software Engineer

Developing Software Systems and API's, as specified by client stakeholders.

Tech Stack

C# .NET MongoDB WPF

Zeiss February 2013 - March 2016

Software Engineer

Development of in-house and client facing Software Systems.
Part Time Position.

Tech Stack

C# WPF .NET Entity Framework

Education

B.Sc. Software Engineering (Ort Braude College)

Class of 2016.

GPA: 83;

Projects

Smart Calendar

An Android Application which enhances itinerary management with location awareness.

- Features**
- Leave On Time for next appointment.
 - Predict missed appointments.
 - Team Itinerary planning and management.
 - On site and on time presence assurance.

Tech Stack

C# .NET Entity Framework Android
